FOUNDATION PROFILE

Anna B. Stearns Charitable Foundation Grants for Low-Income Communities

Program: The Anna B. Stearns Charitable Foundation supports projects and organizations that are designed to strengthen the education, independence, and capabilities of women, children, and youth, as well as protect and preserve the natural environment. Grants are made to agencies that provide services to low-income residents of Boston, Cambridge, Somerville, and Chelsea. The foundation prefers to support efforts that stress prevention rather than remediation, with funding for programs in education, youth development, social services, economic self-sufficiency, and community organizing. The foundation has a special interest in supporting the healthy development of girls and in funding programs in enrichment, mentoring, peer leadership, and public service. The trustees strongly prefer to fund environmental projects that also include other priorities of the foundation, such as education or community service opportunities for low-income urban youth.

Funds: Grant size: up to \$20,000

Deadline: May 1 and November 1 annually.

Eligible: Not-for-profit organizations in the Boston area and in Northern New Hampshire.
