SHOWS FOR CHILDREN

Sesame Street prepares preschoolers for kindergarten. A group of furry monsters, lovable characters, and real people teach children skills like counting, the alphabet, and letter recognition.

Between the Lions helps children ages 4 to 7 learn to read, with a mix of library stories and animated segments that teach vocabulary and reading skills.

Arthur, his family, and friends have adventures that reflect the joys and dilemmas of growing up, helping children understand themselves and the world around them.

Reading Rainbow encourages children ages 4 to 8 to adopt positive reading habits, skills, and attitudes. Host LeVar Burton helps children discover the joy of reading.

ZOOM, the show by kids, for kids®, challenges kids to experiment with science, make crafts, cook, and volunteer. Then they are invited to share their experiences by "sending it to ZOOM"!

Cyberchase takes a team of kid characters on daring missions in cyberspace. To save the day, the heroes have to use math and brain power.

Dragon Tales invites preschoolers ages 2 to 6 to enter Dragon Land with Emmy and her brother Max. There they meet fun-loving dragons and develop their curiosity and enthusiasm for learning.

Clifford The Big Red Dog presents the adventures of Clifford and his pals, who make children laugh while teaching them important lessons—like being a good friend, helping others, and believing in yourself.

Mister Rogers' Neighborhood creates a calm, safe place for young children to learn about themselves, others, and the world around them.

SHOWS FOR ADULTS

Connect with English is a drama about a young Boston woman who leaves everything to pursue her dream of becoming a singer. Helps adults improve their mastery of English as a second language.

TV 411 is for adults who want to improve their reading, writing, vocabulary, math, and other important life skills. Shows real adults who are learning to put new skills into action.

Destinos is a Spanish "telenovela". The drama helps foster listening and comprehension skills in Spanish and introduces various accents and cultures of native Spanish speakers.
