RETScreen Software Solar Water Heating Workshop

Tuesday June 3rd

Wednesday June 4th

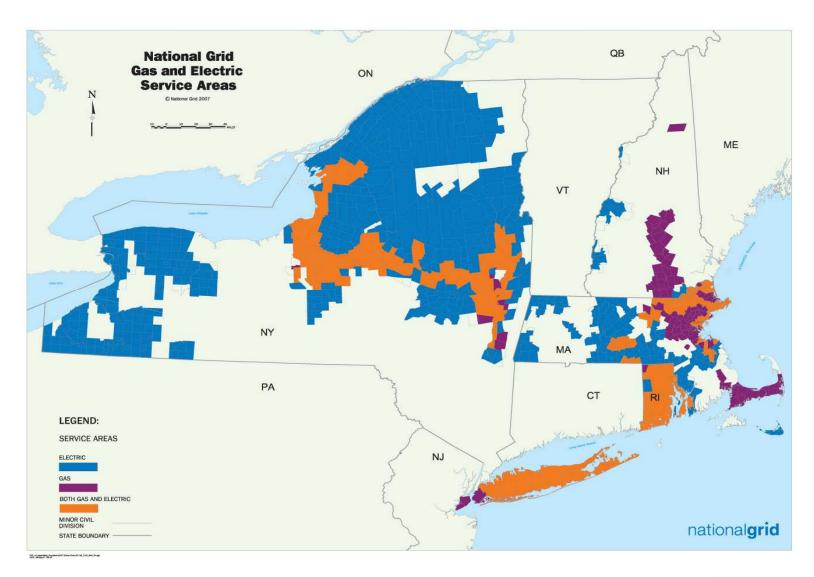

National Grid-Who we are

Why Solar Water Heating?

Energy Efficiency Programs

- Residential, Commercial, Industrial

1. Economic Value

- through energy savings

2. Environmental Benefits

- carbon savings
- -green perception

3. Technical Applications

- variety of applications

National Grid Solar Thermal Program

- Residential
- 15 % of Project cost up to \$1,500
- Systems must have gas back-up
- Hot Water
- Space Heating
- Pool Heating
- 1st Step for Customers-Contact an installer for a quote.
- WWW.SEBANE.com
- Contractor Driven

Residential Requirements:

- Systems must be OG-300 certified
- 2 year installation warranty
- 5 year manufacturer warranty
- Freeze protection to -30

National Grid Solar Thermal Program

Commercial:

- Solar Thermal \$3/therm first year savings
- LIMIT 50% project cost or \$100,000
- Economic Redevelopment funds available for projects with high Community benefits up to \$8 per therm
- RETScreen analysis is required
- Step #1 energy audit
- 1-800-843-3636

Commercial Requirements:

- Custom Approach
- Collectors must be OG-100 certified
- 2 year installation warranty
- 10 year manufacturer warranty
- Freeze protection

Domestic Hot Water

Medium Temp systems raise water temp 30°-70° **F to be** delivered at 120° **F**

- Multi Family Residences
 - affordable housing
 - condo cooperatives
 - luxury condos
- Hotels/Inns
- Mixed UseCommercial Spaces
- Restaurants

Solar Pool Heating

Circulates pool water through system until desired temp is achieved

- Schools
- Community Centers
- 2-5 year payback

Economic Redevelopment Program

provides \$3-\$8/therm depending on community impact

Other Applications

Space Heating (radiant, pre heat, integrated CHP)

- Facilities, Labs
- Office Space

Process Hot Water

- Industrial, Laundromats
- Food Processing

Solar assisted Cooling

- Absorption Chiller

Engineering Grants available up to \$10,000

nationalgrid

Steps to get started

- Commercial
- Call for a audit...
- 1-800-843-3636
- Go to...
- www.ThinkSmartThinkGreen.com
- No Green technology on Brown buildings
- Other efficiency measures will take precedence over Solar thermal

- Residential
- Find an Installer...
- www.SEBANE.com
- Go to...
- www.ThinkSmartThinkGreen.com
- Email us...
- Solar@us.ngrid.com
